Mission Statement

JUCM The Journal of Urgent Care Medicine supports the evolution of urgent care medicine by creating content that addresses both the clinical practice of urgent care medicine and the practice management challenges of keeping pace with an ever-changing health-care marketplace. As the Official Publication of the Urgent Care Association of America and the Urgent Care College of Physicians, JUCM seeks to provide a forum for the exchange of ideas regarding the clinical and business best-practices for running an urgent care center.

JUCM The Journal of Urgent Care Medicine (JUCM) makes every effort to select authors who are knowledgeable in their fields. However, *JUCM* does not warrant the expertise of any author in a particular field, nor is it responsible for any statements by such authors. The opinions expressed in the articles and columns are those of the authors, do not imply endorsement of advertised products, and do not necessarily reflect the opinions or recommendations of Braveheart Publishing or the editors and staff of JUCM. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested by authors should not be used by clinicians without evaluation of their patients' conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with the recommendations of other authorities.

WELCOME

To the 2022/2023 Urgent Care Buyer's Guide™

Congratulations—you've succeeded in leading urgent care through a very challenging couple of years and literally helped countless patients survive the greatest public health threat of our lifetime!

This is no time to rest on our laurels, though. If anything, it's a time to redouble our efforts to ensure the urgent care industry resumes its steady, decades-long ascension.

First we fought just to be noticed. And then for relevance. Now we've demonstrated that urgent care is essential to the health of communities all over the country—not just the literal health of our patients, but also the economic health of those communities and the U.S. healthcare system. We've helped reduce healthcare costs, become employers and tenants of choice in small towns and big cities, and established that our industry represents a dynamic investment opportunity for venture capitalists.

All of this progress would have been impossible without the support of the vendors who supply our EMRs, imaging equipment, billing and coding services, and on and on. If you have it in your urgent care, you got it from someone who had the wherewithal to see the value urgent care brings.

These are not nameless, faceless entities, of course, so we're happy to introduce or reconnect you with them in this edition of the *Urgent Care Buyer's Guide*. You'll find longstanding partners and meet new contacts who are eager to provide what you need to continue caring for patients and supporting your team every day.

Each one of the over 250 vendors inside is an expert in their field. They want to help you. We've organized them into more than 75 categories so you can find the right resource as efficiently as possible.

We want to help you, too, of course; that's why we keep updating the *Urgent Care Buyer's Guide*. If we've succeeded in helping you connect with a vendor who meets your needs, let us—and them—know you found them here!

How to Use This Guide

The UCBG is available in multiple formats—print, PDF, or online—to suit your needs at any time. Wherever you are when you need it, you can find it. You can download the PDF version to any or all of your devices by visiting www.jucm.com; the UCBG has its own tab on the menu bar. Or you can find everything you on our companion website, www.UrgentCareBuyersGuide.com.

Help Us Get Better in Order to Serve You Better

Like the urgent care industry itself, this guide is always an evolving work in progress. In addition to keeping current with vendors who really *get* the urgent care story, we want to ensure we keep current with your needs. If there are ways we can improve the accessibility of the guide or the range of potential partners you'd like to see, please let me know directly.

Thank you for reading the *Urgent Care Buyer's Guide*—and supporting these vendors who recognize the value and essential nature of urgent care!

THE 2022/2023 URGENT CARE Buyer's Guide

"By offering a user-friendly channel to schedule an appointment while waiting elsewhere, rather than in a line outside, our partnership with Experity has already improved our Net Promoter Score."

DR. VINCENT CAMPASANO

Chief Operating Officer, CityMD

The Right Fit for Urgent Care

PATIENT-CENTERED HEALTHCARE BEGINS WITH INTEGRATED PATIENT ENGAGEMENT

With scheduling, registration, reputation management, and reporting tools designed with only urgent care in mind, Experity Patient Engagement helps you turn one-time patients into repeat patients.

- Efficient patient registration
- Optimized clinic operations
- Patient-friendly real-time transparency
- Improved patient satisfaction
- Streamlined Experity EMR/PM integration

"By switching back to Experity, we were able to decrease the amount of time it takes to get our reimbursement from the insurance companies by about 15 days. And also have been able to increase our billing by about 10%."

MICHELLE MERTZ

Practice Owner, Urgent Care Omaha

Experity Billing – The Right Fit for Urgent Care

REDUCE COMPLEXITIES. CONTROL YOUR BOTTOM LINE.

Reduce billing and collection complexities that come with urgent care-specific visits to ensure you get paid for the services you provide. With a proven model built for scale, you'll submit clean claims to speed up collections and control your bottom line.

- 
- Reduce staffing fluctuation and burden
 - Optimize contracting and credentialing
 - Ensure accuracy and compliance
 - Benefit from urgent care billing expertise
 - Get more from Experity EMR/PM integration

MorTan, Inc., the Morgan Lens

PO Box 8719
Missoula, MT 59807
800-423-8659
www.morganlens.com
mortan@morganlens.com

Emergency Eye Irrigation (Hands Free)
The Morgan Lens is a medical device that provides the most effective means of ocular (eye) irrigation to treat many eye injuries. Once the Lens is inserted, your hands are free. The Morgan Lens provides continuous lavage to the cornea and conjunctiva, floating on the irrigating solution and never physically touching the cornea. The irrigating solution provides instant relief to chemical or thermal burns and removes non-embedded foreign materials in the eye.

Treat the patient at your Urgent Care Center rather than delaying treatment and sending them to the Hospital E.D. Call to place your order.

Medical Emergency Preparation

A READINESS GUIDE FOR CLINICS AND MEDICAL OFFICES

EMERGENCY MEDICAL KITS

For Basic Emergency Medical Response

Example of non-IV medications:

- Adult-dose epinephrine auto-injector
- Pediatric-dose epinephrine auto-injector (recommended)
- Epinephrine (1:1000)
- Naloxone
- Albuterol
- Nitroglycerin
- Aspirin
- Oral glucose
- Diphenhydramine

For Advanced Emergency Medical Response

Example of non-IV and IV medications:

- Adult-dose epinephrine auto-injector
- Pediatric-dose epinephrine auto-injector (recommended)
- Epinephrine (1:1000)
- Naloxone
- Albuterol
- Nitroglycerin
- Aspirin
- Oral glucose
- Diphenhydramine
- Epinephrine (1:10,000)
- Lidocaine + Epinephrine
- Lidocaine
- Dopamine
- Solu-Medrol
- Adenosine
- Amiodarone
- Atropine sulfate
- Labetalol
- Furosemide
- Ondansetron
- Sodium chloride
- Lactated ringers
- Dextrose
- Flumazenil
- Magnesium sulfate
- Verapamil

EMERGENCY MEDICATIONS AUTO-REPLENISHMENT

The OnTraq automated replenishment program tracks the expiration dates of emergency medications and supplies in your emergency medical kit and prompts replacement shipments prior to their expiration.

healthfirst.com/ontraq

PORTABLE EMERGENCY OXYGEN SYSTEM

Meeting the following specifications:

- E-cylinder to provide 30 minutes of O₂ at 12-15 LPM (positive pressure O₂)
- Adult bag-valve-mask resuscitator
- Pediatric bag-valve-mask resuscitator

AUTOMATED EXTERNAL DEFIBRILLATOR

Recommended:

- Adult and pediatric pads
- Wall mount and sign

OTHER CONSIDERATIONS

Consider a naloxone rescue kit for opioid overdose and additional epinephrine auto-injectors if you provide vaccinations.

Clinic setups without the setbacks

Whether you're undergoing new construction, remodeling or simply updating your equipment, a successful setup requires an experienced supplier who's been there before and knows how to get the job done.

McKesson's streamlined setup process is designed to help meet your timelines without disrupting your day-to-day, so you and your staff can stay focused on the people who need you most.

Our services include:

- Expert product consultations
- Your own McKesson Setup Coordinator
- Product assembly and placement
- Coordinated deliveries
- Removal of old products or trash
- Product storage for up to 30 days

Simplify your setup process and save valuable time.

To get started, call **866.625.2679** or visit

mms.mckesson.com/content/services-tools/clinic-setup-services.

URGENT CARE LAB ALERT!

HAVE LAB?

Medicus Laboratory Information Systems does it right!

LIS solutions designed specifically for Urgent Care, Primary Care and Free Standing Emergency Centers. Save providers time and money, seamless integration between lab and EMR, no monthly charges or hidden costs, accurate patient lab test results in minutes expedites billing.

- Why pay monthly unexplained fees?
- Providers and staff save time – results sent to chart in minutes, avoid repeat testing, patient callbacks and extra work.
- Eliminate scanning and manual results entry mistakes – no mix-ups, right result in record every time!
- Share patient lab test reports that can be printed or emailed – easy for patients to understand.

BETTER DATA. DEEPER INSIGHTS. IMPROVED OUTCOMES.

You have access to more urgent care data than ever before, but analyzing, interpreting, and funneling all that data to inform your decisions is a challenge.

Experity BI simplifies that process—from teasing out the raw data, to analyzing and aggregating it into visual dashboards that empower owners, administrators, and clinicians with insights that drive action. Save time use the data you have to achieve better patient and business outcomes.

- 
- Drive data-based decision-making
 - Access clinical, operational, financial, and custom dashboards
 - Easily access metrics that matter for urgent care
 - Monitor performance holistically
 - Support accountability through transparency
 - Add-on module to Experity EMR/PM

Experity Business Intelligence – The Right Fit for Urgent Care

“Experity BI lets us drill down to find the source of an anomaly or a metric trending in the wrong direction. We don’t have to run 12 reports and spend 10 hours. We can get the answer in minutes. To me, the key value of Experity BI is the ability to go deeper with less effort.”

BEN MORRIS

CEO/President,
RedMed Urgent Clinic
