Mission Statement

JUCM The Journal of Urgent Care Medicine supports the evolution of urgent care medicine by creating content that addresses both the clinical practice of urgent care medicine and the practice management challenges of keeping pace with an ever-changing healthcare marketplace. As the Official Publication of the Urgent Care Association of America, the College of Urgent Care Medicine and the Urgent Care College of Physicians, *JUCM* seeks to provide a forum for the exchange of ideas regarding the clinical and business best-practices for running an urgent care center.

JUCM The Journal of Urgent Care Medicine (JUCM) makes every effort to select authors who are knowledgeable in their fields. However, *JUCM* does not warrant the expertise of any author in a particular field, nor is it responsible for any statements by such authors. The opinions expressed in the articles and columns are those of the authors, do not imply endorsement of advertised products, and do not necessarily reflect the opinions or recommendations of Braveheart Publishing or the editors and staff of *JUCM*. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested by authors should not be used by clinicians without evaluation of their patients' conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with the recommendations of other authorities.

WELCOME

To the 2025 Urgent Care Buyer's Guide™

Urgent care isn't just growing—it's **reshaping the way America gets healthcare**. Last year alone, patients walked through urgent care doors more than **206 million times**, driving the market to an impressive **\$25.5 billion** in value. With over **14,000 unique clinics** nationwide, our industry is no longer the "alternative" to traditional care—it's a **front-line essential**, trusted by communities from major metros to the most rural towns.

This transformation brings opportunity—and complexity. Today's urgent care owners and administrators faces a constant stream of decisions:

- Which **EMR** will optimize both speed and compliance?
- What **imaging or diagnostic equipment** will deliver the clearest results, fastest?
- Which partners will help you cut costs without cutting quality?

In urgent care, every operational choice ultimately affects **patient experience, efficiency, and the bottom line**. That's why this Buyer's Guide exists—to be your **shortcut to clarity** in a rapidly-evolving market.

Inside, you'll find more than **250 vetted vendors** across **75+ categories**, each with a commitment to serving urgent care. Whether you're opening your first center, scaling to new markets, or tightening the operations of an established network, this Guide is your go-to resource—**available in print, PDF, and online**—whenever and wherever you need it.

As urgent care's role expands, the stakes get higher—and so does the potential. Use this Guide to discover new solutions, strengthen your vendor relationships, and position your organization to lead in a market that isn't slowing down.

Let's keep building the future of healthcare, one patient visit—and one smart partnership—at a time.

RCM/BILLING

Smarter, Faster, Transparent RCM

Identify Roadblocks. Find Solutions.

Improve cash flow, efficiency, and compliance with industry-leading Experity RCM. Using real-time dashboards and automated alerts, we surface performance issues by payer, group, provider, procedure codes, and more. With cleaner claims, you speed up collections to control your bottom line.

“Using Experity for reimbursement has allowed our front desk staff and office managers to concentrate on building relationships with the patients. They aren’t seen as the money people, hounding them to pay their bills. It allows for a more relaxed encounter with patients.”

Expand human impact at every urgent care touchpoint

BUSINESS INTELLIGENCE

Make Critical Decisions With Confidence

Better Data. Deeper Insights. Improved Outcomes.

You have access to more urgent care data than ever before, but funneling, analyzing, and interpreting all that data to inform your decisions is a challenge.

Experity BI simplifies that process — from teasing out and analyzing the raw data, to aggregating it into easy-to-interpret reports. Owners, administrators, and clinicians get insights to drive action. With BI, you expand the impact of your team at every urgent care touchpoint to achieve better patient and business outcomes.

- Clinical, operational, and financial data
- Holistic performance monitoring
- Visualizations powered by Tableau

Make your data work harder for you.

Marketing Urgent Care since 2006. We specialize in graphic design, print, mailing, large format, and promo items. Opening a new clinic? Need a boost in patient flow? Our large Urgent Care EDDMs are a perfect way to inform the public. Tangible items reign supreme when making a marketing impact. We also offer custom multi-clinic print programs to ensure lower cost and reduced time.

MyInspection® . Be compliant. Stay compliant. And inspection ready.

Keep your Urgent Care CLIA compliant with secure, cost-effective, easy-to-use electronic lab records.

MyInspection® helps urgent care laboratories stay on top of documentation, training, and inspections — with tools and services designed by experts who understand what it takes to be and stay CLIA compliant.

- Fully customized setup for your test menu, instruments, and workflow
- CLIA compliant electronic policies and procedures with fillable forms and onboarding tools
- Anytime, anywhere access via phone, tablet, or computer
- Embedded event calendar with reminders
- Manage one or multiple lab locations remotely — each with its own documentation
- Secure inspector login for easy audits
- Real-time support by phone or email — no added fees
- Expert Compliance Guidance- we make it easy!

To keep your laboratory compliant and inspection ready, call 888.534.2977 or visit myinspection.us today!

Expand Human Impact at Every Urgent Care Touchpoint

AI is here. A practical tool for urgent care clinics to reduce administrative burden, improve patient flow, and enhance care delivery. Artificial intelligence expands your staff, reducing routine work and maximizing human impact by creating space for more meaningful patient interactions.

INTRODUCING...

Care Agent - Deliver always-on, personalized patient engagement

Built to serve as your digital front door around the clock, Care Agent operates through secure text messaging and web-based interactions, eliminating the need for apps or logins while preserving full HIPAA compliance. Explore Care Agent's initial AI skills today.

AI Insurance Matching - Turn check-in into a competitive advantage

This new integration allows patients to upload their driver's license and insurance card during online registration, speeding up patient flow and making sure claims are clean from the start.

AI Scribe - Free up providers by automating the burden of charting

AI Scribe listens during the patient encounter, transcribes the conversation, and generates structured clinical notes that can be integrated directly into the Experity EMR. (Coming late 2025)
